

# Stool-Tool

Konstantin Grcic, 2016

**vitra.**

The Stool-Tool resembles a monolithic sculpture and invites users to spontaneously try out its many options. Intuitive use reveals numerous seating positions and possible functions as a small work or storage surface. Lightweight and stackable, the Stool-Tool also has a cutout handle that makes it easy to pick up and store away.

The Stool-Tool is thus suited for a wide range of office applications, from presentation venues and mid-floor zones, workshop and meeting areas to otherwise unused corners and niches.

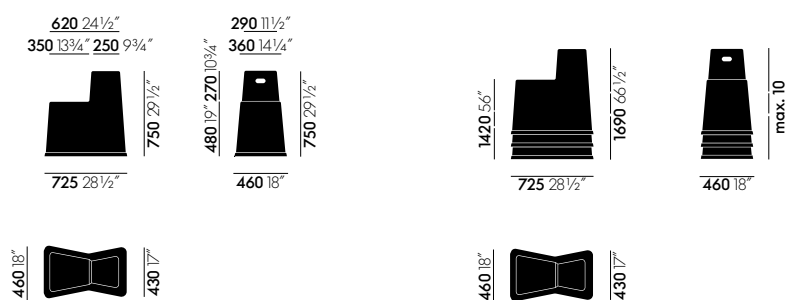

## Materials

- **Stool:** polypropylene, 5.5 kg, up to 10 units can be stacked on the floor, incl. stacking protectors.
- **Glides:** universal glides.

**Outdoor applications:** suitable for use in outdoor conditions on a temporary or seasonal basis, following care instructions. After prolonged exposure to the elements, clean and store away in a dry, sheltered place to ensure lasting use and avoid any deterioration in appearance.
