

Yoruba Rose Floor  
INGO MAURER TEAM 2020

Yoruba Rose Floor is the floor lamp version of the Yoruba Rose table lamp. The paper shade is almost circular, suspended on fine metal rods and supported by a slender stainless steel rod. The height is adjustable between 130 and 160 cm. Yoruba Rose Floor is part of the MaMo Nouchies collection, developed by Dagmar Mombach together with Ingo Maurer and his team. All MaMo Nouchies lamps feature shades made of Japanese paper. The shade is carefully shaped in multiple complex steps at Dagmar Mombach's manufactory. Inside, there is an LED module with a heat sink. This module was specially developed by the Ingo Maurer team for the MaMo Nouchies. The light is warm and soft, closely resembling that of traditional incandescent bulbs.

#### Light source

LED 9 W, 970 lm (nom.), 2700 K, CRI>90, EEC F (A-G). The LED light source cannot be replaced by the user, but only by a professional.

#### Technical data
