Aldo Bakker

The work of Dutch artist and designer Aldo Bakker has a delicate and rare sense of harmony and the shapes communicate through colour, association, touch, texture, and materiality. His designs are exquisitely balanced, often strange, yet strangely familiar. Timeless, sculptural and always intended to trigger a response. Widely published and exhibited, Aldo Bakker continues selected collaborations with renown manufacturers while further completing his personal collection with master craftsmen and galleries around the world.

Tranquil and seductive, Aldo Bakker’s Console Table floats exquisitely between sculpture and furniture. It depicts the simplest concept of a table: two columns and a surface. The legs are an elongation of the line created by the tabletop. The tabletop and the base of the legs have the same width, making them equally important to the design. The distance between the legs is not fixed, but can be changed as preferred, adding to the sculptural quality of this piece.
