

## COLLECTION OVERVIEW: BIPLANE, 2009

Alberto Meda

A compositional insight that gave rise to a collection of tables characterised by great flexibility in shape, size and range of uses. The project **BIPLANE** arose from the idea of creating a broad and differentiated range of designs. The legs in die-cast aluminium are fixed both to a central undertop and to the table top forming a solid structure. The number of legs may vary depending on the size of the top, available in different shapes and finishes.

### Finishes notes

- The matt lacquer is anti-fingerprint and highly resistant.
- For items cod. 400, 401, 40B, 402, 403: black bilaminare (BNRO) is also available on request with price increase.
- The top and shelf undertop always have the same finish.
- In case of lacquered structure and top in marble, the shelf undertop matches the colour of the structure.
- With a bilaminare top, the shelf is made of MDF matching the colour of the top.
