Finishes	lacquered structure (textured/gloss)	polished structure
lacquered MDF (matt)	<input type="radio"/>	<input type="radio"/>
pre-composed wood (oak)	<input type="radio"/>	<input type="radio"/>
wood (oak / walnut)	<input type="radio"/>	<input type="radio"/>
marble	<input type="radio"/>	<input type="radio"/>

Finishes notes

- The matt lacquer is anti-fingerprint and highly resistant.
- The top and shelf undertop always have the same finish.
- In case of lacquered structure and top in marble, the shelf undertop matches the colour of the structure.

BIPLANE
Alberto Meda, 2009

A compositional insight that gave rise to a collection of tables characterised by great flexibility in shape, size and range of uses. The project BIPLANE arose from the idea of creating a broad and differentiated range of designs. The legs in die-cast aluminium are fixed both to a central undertop and to the table top forming a solid structure. The number of legs may vary depending on the size of the top, available in different shapes and finishes.
