

COLLECTION OVERVIEW: LEGNOLETTO, 2001

Alfredo Häberli

The die-cast aluminium legs supporting the solid wood frame are the distinctive elements of LEGNOLETTO, an articulated and complete bed collection that elegantly furnishes a room. Different configurations are obtained through a range of modular elements that can be arranged to meet different needs.

Linear and contemporary, LEGNOLETTO is available in various sizes and models, with or without headboard and bedside shelves.

Accessories

Notes

Legnoletto can be configured according to the customer's needs. You can choose between the different headboard and footboard types and combine them together to create numerous configurations. The leg that characterises all configurations is made of polished or lacquered die-cast aluminium. The leg does not protrude from the bed structure.

CATALOGUE ALIAS FOCUS

Download the catalogue on our website to learn more about the collection.

Legnoletto is also available 10 cm longer than the standard size, thanks to the longer lateral and central elements. The central unit, headboard and footboard do not change, the space between them increases.

Finishes (find out more in our **MATERIAlias** section)

Finishes notes

Other RAL/NCS colour finishes available on request. Contact the Sales Department.

Certifications

Resistance test/Fire resistance

It is possible to request a fire-retardant lacquer, which may have a different opacity to the standard one.

Maintenance

Download the care instructions from alias.design (Resources section): ST 08

Alias

Company certifications:
UNI EN ISO 14001:2015 / UNI EN ISO 9001:2015

IT

Partendo dall'elemento centrale è possibile scegliere la testiera e pediera. Ogni elemento è supportato da longheroni e traversi disponibili di varie dimensioni a seconda della larghezza e lunghezza della configurazione.

EN

Starting from the central element, it is possible to choose the headboard and footboard. Each element is supported by lateral and central elements and crosspieces available in various sizes depending on the width and length of the configuration.

DE

Ausgehend vom zentralen Element können Sie Kopf- und Fußteil wählen. Jedes Element wird durch Längs- und Quertraversen gestützt, die je nach Breite und Länge der Konfiguration in verschiedenen Größen erhältlich sind.

FR

À partir de l'élément central, il est possible de choisir la tête et le pied de lit. Chaque élément est soutenu par des longerons et des traverses disponibles dans différentes tailles en fonction de la largeur et de la longueur de la configuration.
