

## COLLECTION OVERVIEW: DEHORS, 2008

Michele De Lucchi

The DEHORS collection is designed to create an ideal “garden living room”, inspired by nature and its irregular shapes. The structures of the products differ from the usual vertical lines. The result is a collection of wavy shapes that move away from architectural rigour and offer an unexpected degree of comfort. This is a modular system characterized by a frame in steel treated for outdoor use and by the weather-resistant cushions, thanks to their carefully selected padding and covers.
